DETAILED ACTION

The following action is in response to the amendment filed for application 10/591,873 on August 6, 2009.

Election/Restrictions

Since claim 29 is allowable and reads upon the remaining embodiments, claims 35-37, 53-58 and 61-62 have been rejoindered and the election has been withdrawn.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ryan Smith on October 6, 2009.

The application has been amended as follows:

In Claim 61, on line 2, "59" has been replaced with --29--.

In Claim 62, on line 2, "59" has been replaced with --29--.

Allowable Subject Matter

Claims 29-30, 35-58, and 61-62 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to show or render obvious the power transmission system as claimed, and particularly wherein the controller includes a device that controls the control valve so that the discharge amount of the oil pump is reduced, or so that the discharge pressure of the oil pump is raised according to an increase in target value of the torque transmitted between the input member and the output member, and including the remaining structure and controls of claim 29.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
